SUMMARY

Adrien is a results-driven Software Engineer with nearly 5 years of experience in web and cross-platform mobile application development. Skilled in delivering high-quality solutions, problem-solving, and agile methodologies, he has also worked as a Scrum Master and IT Consultant, thriving in collaborative and innovative environments.

Passionate about teaching and mentorship, Adrien has taught young girls in technology programs and is currently guiding young students in software development, inspiring the next generation of technologists. His interests span Financial Technology, Banking, Healthcare Solutions, Application Development, and Artificial Intelligence, where he continuously seeks to create impactful and forward-looking solutions.

EDUCATION

- **Master of Engineering**, Douala Institute of Technology, 2022
- **Bachelor of Science in Computer Science**, University of the People, 2022
- **Bachelor of Engineering**, Douala Institute of Technology, 2020

SKILLS

- Programming & Development: Web and cross-platform mobile application development
- Programming Languages: Java, Python, Typescript, PHP
- Roles: Software Engineer, Scrum Master, IT Consultant, Tech Lead
- Technical Areas of Interest: FinTech, Banking, Healthcare, AI, Application Development
- Core Strengths: Problem-solving, delivering high-quality solutions, innovation
- Leadership & Mentorship: Teaching and mentoring young students in technology

EXPERIENCE

PKFokam Research Center — *Backend Developer, Tech Lead, Business Analyst* | Aug 2023 – Present

Responsibilities:

- Built and maintained CBS backend features with Java 17 & 21, Spring Boot 3, NestJS, RabbitMQ, Axon Server, and WebSockets.
- Converted business needs into user stories, acceptance criteria, and process flows with stakeholders.
- Led a cross-functional team (Backend, Frontend, QA, BA), managing tasks, code reviews, and technical standards.
- Supported QA automation and implemented API and frontend E2E tests with Cypress.
- Ran Agile ceremonies (planning, reviews, retrospectives) as Scrum Master, aligning delivery with business goals.
- Managed documentation, knowledge-sharing, and collaboration using Jira, Confluence, Draw.io, Teams, and Bitbucket pipelines.

PKFokam Institute of Excellence — *Lecturer* | Aug 2025 – Present

Responsibilities:

- Designed and delivered engaging lectures and tutorials to undergraduate students in computer science and related fields.
- Prepared course materials, assignments, and assessments to support student learning outcomes.
- Guided students through practical projects, encouraging problem-solving and critical thinking.
- Mentored and supported students in academic and professional development.
- Participated in curriculum development and continuous improvement of teaching methods.
- Contributed to academic discussions, departmental activities, and knowledge-sharing initiatives.

Girl Up — *Trainer* | December 2022 – August 2023

Responsibilities:

- I volunteered as a trainer for the Girl Up program,
- Taught coding fundamentals to young women to promote STEM education and empower participants.
- Designed and delivered hands-on workshops,
- Impacted over 50 participants by fostering skills in web development and problem-solving

ECIMA Consulting — *Software Engineer* | Apr 2022 - Aug 2023

Responsibilities:

- Designed, developed, and maintained interactive and functional websites tailored to client specifications.
- Collaborated with clients and stakeholders to gather and analyze requirements, translating them into technical solutions.
- Created visually appealing and intuitive user interfaces to enhance user engagement and satisfaction.
- Integrated interactive features and optimized website performance for faster load times and scalability.
- Conducted thorough testing and debugging to ensure cross-browser compatibility and application reliability.

- Participated in project planning and Agile workflows to deliver high-quality solutions within deadlines.
- Stayed updated with emerging web development trends and technologies to incorporate modern practices.

Technologies : JavaScript, HTML5, CSS3, Angular, Django, Git, Bitbucket, Jira

Key Achievement: Delivered multiple client websites with optimized performance and interactive features, resulting in a 20% increase in user engagement based on client feedback.

PERFITCOM — *IT Consultant* | Jan 2021 - Apr 2022

Project: IT Infrastructure Optimization and Microsoft Office 365 Deployment

Responsibilities:

- Analyzed client technological needs and recommended tailored IT solutions to enhance operational efficiency
- Deployed and configured Microsoft Office 365 Business Basic for seamless cloud-based collaboration.
- Managed and optimized computer infrastructure, including hardware and software maintenance.
- Implemented Dahua access control systems, ensuring secure and efficient access management.
- Provided technical support and troubleshooting to resolve system issues and minimize downtime.
- Conducted user training sessions on Office 365 tools and best practices for IT security.
- Collaborated with teams to implement data backup and recovery strategies to ensure business continuity.

Technologies: Microsoft Office 365, Dahua Access Control Systems, Windows Server, Active Directory, Microsoft Azure

Key Achievement: Successfully deployed Microsoft Office 365 across the organization, improving collaboration and reducing operational downtime by 15%.

Afriland First Bank Cameroon — *Entry Level* - Jul 2018 – Sep 2018

Responsibilities:

- Conducted research on the feasibility of implementing AI systems for banking operations.
- Prepared weekly reports on technological trends and competitive intelligence in the banking sector.
- Assisted in troubleshooting and optimizing internal applications to improve performance.
- Gained hands-on experience in web development and system optimization under senior supervision.
- Documented findings and recommendations to the IT Team for potential AI integration.

Key Achievement: Delivered a comprehensive report on AI implementation strategies, which was used as a reference for future technology adoption discussions within the bank.

CERTIFICATIONS

- Professional Scrum Master II (PSM II), 2023
- Network Security Expert 3 (NSE 3), 2022
- Coursera Trainings, 2025
